### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record because the teachings of the references taken as a whole do not teach or render obvious the combination set forth, including that of a locking device disposed within a door operator of a passenger transit vehicle door system having a lock bar having at least one cavity, a lock shaft, a lock actuator attached to the lock shaft and enabling rotation of the lock shaft, a lock lever attached to the lock shaft for engagement with the locking cavity for maintaining the door in a fully locked position and movable to the unlocked position by the lock actuator, a lock latch mechanism disposed within the door system and having a unlocking cam attached to an end of the lock shaft, a lock latch lever pivotally biased for engagement with a first portion of the unlocking cam, and the lock lever is biased for engagement with a second portion of the unlocking cam when the lock lever engages with the locking cavity, and a reset lever engageable with the lock latch lever for pivotally moving from engagement with the first portion enabling rotation of the lock shaft.

The closest prior art of record, U.S. Patent Number 6,446,389 to Heffner et al., discloses a locking device disposed within a door operator of a passenger transit vehicle door system having a lock bar having at least one cavity, a lock shaft, a lock actuator attached to the lock shaft and enabling rotation of the lock shaft, a lock lever attached to the lock shaft for engagement with the locking cavity for maintaining the door in a fully locked position and movable to the unlocked position by the lock actuator, a lock latch mechanism disposed within the door system. However, Heffner et al. does not disclose the specifics of the lock latch mechanism, specifically the unlocking cam.

Art Unit: 3676

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
